

Address the critical housing
shortage facing key workers
in our region

THE PROBLEM

Employers in the region are facing an unprecedented shortage of key workers, being exacerbated by the underlying **lack of affordable housing**.

THE ASK

Business Illawarra is seeking urgent action from the NSW Government to provide **greater access to affordable housing** for our region's key workers. In February 2023, Business Illawarra will release a major housing research and strategy document, and seek further commitments in accordance with its recommendations from both major parties.
